Custodial history

This artificial collection is comprised of newsletters acquired from various sources at various times. Most of them will not have accession numbers and some may have had a level of cataloging done previously. Each box will be left with room for a small amount of growth. As the collection continues to grow, if a box is full, a box 'a' will be added to keep the collection in alphabetical order.

Scope and content

These newsletters are from academic and other offices and units at Kansas State University. Topics typically will relate to department information, personnel updates, and similar subjects.

Notes

Arrangement

Alphabetically by campus unit name, and then normally alphabetical by title within each campus unit.

Restrictions on access

No access restrictions: All materials are open for research.

Conditions governing use

The researcher assumes full responsibility for observing all copyright, property, and libel laws as they apply.

Note [General]

Disaster Recovery 2023 note: Box 2 (A83412052912) is not completely identical to the Finding Aid record/ description and folders appear out of order, so the box will need review.
